

Since 1958, Jan Fan® has been a leading manufacturer of industrial air circulation fans that are extremely energy efficient and designed to last. Jan Fan® has rightfully earned its reputation as the standard within automotive and heavy industrial applications by providing superior quality and outstanding customer service for over 60 years. Each fan is engineered for a long product life and ease of maintenance. Their durability has been proven over time and under the most rigorous circumstances.

Jan Fan® has been designed with modularity and ease of use in mind. To ensure that our fans are ideal for any application we offer multiple mounting options: Pedestal Fan, I-Beam Mount, C-Channel Mount, Wall/Ceiling Mount, Articulating Arm, and Adapter Kit Mount.

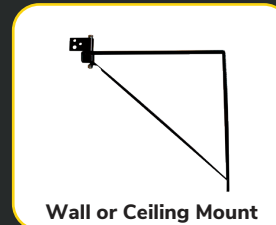

- **Modular Design Delivers Ultimate Flexibility**
- **Provides Greater Air Velocity**
- **Full 5-Year Warranty**
- **Energy Savings Module Available**
